

Subject: Who Is Beni and Foundation?

I am so glad by hiring your respond today, but I have been written that I am freelancer not a foundation owner but that thing has become one of my persistence dreams of mine. Whatever it was have a time for organize one foundation to make young people like me, closely for Indonesia teenager for keeping our brain behavior of thinking always be under control. Most of us has already doesn't have what we call Indonesia East Asia behavior. Most of us always track the western to decide every single of our living decision. This is sound too perfectionist I guess, but by keep our original brain behavior we hope we can keep the stability of the development of the country.

Never try for blaming someone or other thing, because I do western viewing too. But the best thing that I and the rest could do is just keep our moral esteem beating always in our spirit.

I like to be western, but not for being arrogant. Most of our teenagers prefer use English than Indonesia, how we can keep this wonderful language. Most of yours have been doing a great thing by open this language at some universities. But I rather agree that we should do it more relevant with our tongue. But what should we do?

The basic thing that I can do just wrote in some blog, I never trying for media because I believe the opinion like this will be end in the rubbish because I am just a young men and a very ordinary person. I like to have publishing some of my written but going publish means I need more endorse, more crews that have a same opinion, and of course need more modals.

My opinion above is nothing, I would like to say them for inversely proportional to my condition today, because I haven't had my fear if I do resign from my present activity. Today I am employee of one of Cooper and Gold Company group that the owner is USA Company, its call FREEPORT MACMORAN, and I am shit as HR at Engineering Group Staff.

I do keep my dreaming above, but by the steps today I believe those thing would help me solved and found how to meet the same opinion.

Yes, I am spontaneous and kind of square man, but most of my colleague, friends, peers and family known me as a very stronger and perfectionist as I could. I ever take care with what people say, but I will see why they sound so odd for or about me than I will get close to them to see why they shot like that, try to find and describe their reason and ideology for being said so odd of me.

Today I am on my last vacation (I wish), this vacation will be end on November 10, 2008 and I will resign my self on December 22, 2008. the mostly reason is to reach my dreams and family timing. I have lost a lot of family time almost 3 years after I complete my study at Gadjah Mada University the most university in Indonesia (UI, ITB, UGM are list on THES ranks).

I believe today and tomorrow are plan indirectly of my happen.

I believe that people we meet today are reflection of who we are.

I believe that there were so many people will gain and pro with my opinion.

I believe that one world will become true when our brain behavior of thinking and manner are always in our control.

And of course I do believe that when you have confirmed my invitation here you are daring on mine. Yes, it is sound so excessive but for me there is nothing happen without a reason.

That's for all, thanks you for your time with my very poor English. As you know that I am come from very ordinary family but with a very high tension, have a graduate from some college is wonderful thing that happen in my life that is why I do believe that this wonderful should be share with the other too.

If you already have some foundation that dedicated for poverty, homely and most of humanity issue

may I come to join you?

Re: Who Is Beni and Foundation?

After describe your replays I just can say grateful, your words have giving me a new ambiance of spirit in my main target. Even, I must graping my dictionary to get them close, it was so exiting for me. When I say I was rubbish, I don't know those word has brought me a new spirit to restrain my big big wall that give me a much of their obstacle. By reading your replay make me stand again to distribute a much more proposal of this project and I believe that if we have a holy think the God would always sent us a holy ways too.

I do agree about the history says to us, but I believe those heritage mammon of language should be keep by us.

I was so thank you and have in a pride time when you share me about this bing bang of universe research LHC. I really really grateful to the God have an opportunity Online email with you.

Technology is made by us to make the hardest thing become easier to be applied.

But I am so sorry this opinion was order in my mind, I still cant believe it happen to me. Yes you are here when the rest of others just plan their economic site to be the prior of priority. I just out of my mind to know that there were guys even people still have concern about our world of universe life.

The thing that I love to learn about US people is your commitment and confidently about the country and this power are too slightly by presentation in our local Indonesia people. Whatever it was, I hope US champaign give your country more wealthy then before and have see different side for country like me. US champaign I hope can bring this crowd stuff to the better future of living.

No one would prevent you as their friend neither do I, have an opportunity like this is kind of wonderful thing comes lies on me. I do so lucky even my English is too poor, but by seeing your opinion about my ideology is make me spread my eyes that there were many people would be my side to support and spirit me.

By hiring your words make me feel to turn over of my remorse, to straight the point of my desire to be, to be decision of my wonderful condition that will be in sad when I do not do any step, to be brain of my own independently to see the world more valuable, and I remind of my self that money can't control us every side.

I really pride for being your friend today and next.

Thanks for your replays.

Enjoy writing was happen on me by replays your email.
